## EDUCATION

**EPITA - Apprenticeship engineering cycle | Cybersecurity, Systems and Networks major** 2021 - 2024

- High-level training in cybersecurity (Pentesting, Forensics, Reverse Engineering, Cryptology, Active Directory)
- Achievement of projects covering various areas of computer science including Kernel, C/Unix, Machine Learning, Cloud

**Janson-De-Sailly - Preparatory classes for engineering school | Mathematics major** 2019 - 2021

**Louis-Le-Grand - High school Diploma | French Scientific Baccalaureate with honors** 2015 - 2018

## PROFESSIONAL EXPERIENCE

**Thales CERT - R&D Cybersecurity Engineer (Apprenticeship)** October 2021 - Present

- **Conception, development, and implementation of FAST** (Forensic Software Analysis Toolbox) software, an automated installation tool for forensic utilities utilized by teams worldwide - [thalesgroup-cert/FAST](#)
- **Processing, qualifying, and remediating cybersecurity incidents** within the group by investigating through log monitoring tools and forensic analysis software
- **Automating CERT analyst tasks** to achieve significant time and efficiency gains, including automating the entire workflow for incident qualification and remediation of recurring incidents, automatic report generation post-incident, and PowerBi dashboard KPI generation

**Jedha Bootcamp - Fullstack Datascience Training | Teacher assistant** March 2019 - May 2019

**Teacher assistant for Fullstack Datascience training (Freelance)**

- Accompanying and guiding employees, career changers, freelancers, entrepreneurs, and students in achieving their professional goals and securing their dream positions by providing personalized coaching
- Explanation and simplification of fundamental principles of machine learning and neural networks

**Fullstack training of 300h in Data science (12 weeks of training)**

- **End-of-training project** | Conception and development of a web application displaying real estate sales data using artificial intelligence to estimate and predict the evolution of the real estate market in Île-de-France.
- Data analysis and visualization, Machine learning, Deep learning, Web development, API integration, Scraping, Big data

## ASSOCIATION

**CRISTAL - President of EPITA's Junior Enterprise** August 2023 - Present

- Direction and supervision of over 30 diverse IT projects ranging from cybersecurity to application development and including AI, contributing to generating over €80,000 in revenue.
- Strategic decision-making and establishment of long-term objectives through developing partnerships and collaborations that have contributed to enhancing CRISTAL's presence and reputation in the market.

## CERTIFICATION

**MOOC ANSSI SecNumAcadémie | Introduction to cybersecurity risks and vulnerabilities** 2021

**Jedha Bootcamp | Datascience Designer and Developer** 2019

**First Aid Certificate (PSC1)** 2015

### IT skills

HTML/CSS Python C  
Machine Learning Scripting  
PowerBi Forensic API  
Scraping Javascript SQL

### Soft skills

Organization and rigor  
Adaptability Autonomy  
Sense of synthesis  
Teamwork Pedagogy

### Language

French Native  
English Professional  
Chinese Fluent

### Hobbies

Training Udemy, LeetCode, TryHackMe  
Music Piano (2 years)  
Sport Workout, Dance
